Profile

A passionate learner and innovative thinker with extensive background in retail and business. Decided to make the career change and set my goal to become a fullstack developer.

Through self learning and attending Coding House, a fully immersive JavaScript bootcamp in the San Francisco Bay Area. I am now a fullstack developer and a code mentor at Coding House giving new students code review and feedback.

Achievements

Award: 1st place JP Morgan Chase,

Technica Hackathon 2015

WomenWhoCode and Girl Develop it New York City and San Francisco Active Member
